- Worked on the development and enhancement of school and inventory management systems, ensuring efficient data management and streamlined operations.

## EDUCATION

Tilak Maharashtra Vidhyapeeth at Pune, India

Bachelor of Computer Applications In Computer Science

Expected in July 2025

## PROJECTS & CODING

I am a full-stack developer with expertise in both web and mobile application development. My coding approach focuses on writing clean, efficient, and scalable code that ensures high performance and maintainability. I

specialize in **React.js, Next.js, Express (backend), and React Native (mobile development)** while also integrating various APIs and third-party services to enhance functionality.

**Key Projects & Contribution:**

**School Management System (React Native App)**

**Role:** Worked as a **Frontend React Native developer** in a team to build the app.  
**Frontend (React Native):** Contributed to UI development and performance optimizations.

**Key Contributions:**

- Implemented **student & staff management** features, including attendance tracking.
- Helped develop **timetable scheduling**.
- Worked on the **parent & student portal** for real-time grade and assignment access.
- Integrated map and bus tracking system’s Frontend

**Inventory Management System (React Native App)**

**Role:** Worked as a **React Native & Backend developer** in a team.  
**Frontend (React Native):** Developed UI components and improved user experience.  
**Backend (Express.js & PostgreSQL):** Contributed to API development.

**Key Contributions:**

- Assisted in **real-time stock tracking** and automated low-stock alerts.
- Integrated **barcode scanning** for quick product entry and retrieval.
- Developed **purchase & sales management** features for supplier orders and sales tracking.
- Helped implement **role-based access control** for secure data handling.
- Contributed to **reports & analytics** , providing insights into stock movement and revenue.
